23. Problem: (use additional Sheets if necessary)
Perl Convert BinHex moule v1.119 must be deployed to the sites in support of QAMUT. It was distributed last August as a TE and must now be formally released.

24. Proposed Solution: (use additional sheets if necessary)
Authorize ECS sites to install Perl Convert BinHex module v1.119 as per the instructions in the attached release notes (914-TDA-225). No license keys are required.

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
If the Perl Convert BinHex module is not installed, the QAMUT mail parser application will not work. QAMUT processing rejects input of attachments received as input data from certain email systems unless the Convert Bin Hex module is installed.
